Research Office/Admin Contract

Research Office Contact Name *

Title   First Name   Last Name

Research Officer Contact Phone Number *

Must be a New Zealand phone number.

Research Officer Contact Email *

Must be an email address.

Eligibility

Confirm that your application meets the following eligibility criteria:

- is prepared and submitted by a New Zealand-based University.
- the benefits of the research are for New Zealand and accrued outside of the University/ legal entity representing the University.
- the majority of the research, science or technology, or related activities, will be undertaken in New Zealand. Any planned overseas work, or collaborations, must be declared in the proposal.
- the research proposal describes activities that are unique to this proposal and any co-funded activities are declared.

Tick to confirm you are eligible for the University Research Programme 2024-2026 round. *
○ Yes

Existing Grant Holders

Those applicants who already hold a Toka Tū Ake University Research Programme from the 2020 round are not required to submit a full Expression of Interest at this stage but will be automatically invited to submit a full proposal when that stage opens, along with the successful new Expression of Interest applicants.

If the applicant would like to submit a substantially different proposal than their current University Research Programme, which doesn't build on their existing programme, then they are encouraged to submit a full EOI.

Do you currently lead a Toka Tū Ake University Research Programme Grant? *
☐ Yes, and I intend this application to continue and build on that programme (will be sent to a short form)

☐   Yes, but I would like to conclude the current programme and apply for something quite different (will be sent to the full form)
☐   No, I do not (will be sent to the full form)
No more than 1 choice may be selected.

Expression of Interest

* indicates a required field

Required information:

- Word limits are provided as a guide and should be adhered to where noted. Fields with a red asterisk (*) indicate mandatory information.
- Unless specifically requested, do not include URLs. Information provided by way of URL links to websites will not be considered or assessed.
- Ensure that your EoI directly addresses the eligibility and assessment criteria and considers the Research Investment Priorities.

- Information provided in this EoI should be reflected in the Full Proposal (if successful). Only minimal changes are allowed between the EoI and full proposal documents, so please take care with providing accurate content into the EoI form.

Programme Summary

Provide a summary of the proposal. Include here: why this project is important to New Zealand, what you propose to do, how this project will be achieved and the outcomes expected.

Word count:
Must be no more than 500 words.

Alignment

Refer here to how your proposal addresses Toka Tū Ake Research Investment Priorities Statement 2021-2023 and the Resilience Strategy for Natural Hazard Risk Reduction 2019-2029.

Alignment: *

Word count:
Must be no more than 300 words.

Research Capability Building

Describe how you will build research capability over the life of this project.

Research Capability Building: *

Word count:
Must be no more than 300 words.

Other details

* indicates a required field

Toka Tu Ake Research Investment Priorities

The full wording of these research priorities is in the [Research Investment Priorities Statement 2021-2023](#).

Tick one box (two at most) that best represents the research investment priority that your URP proposal addresses. *
☐   Empowering People – Understanding how people perceive and manage risk
☐   Resilient Buildings – Understanding and improving building performance
☐   Smarter Land Use – Understanding, improving and managing land-use
☐   Governance and Economics – Understanding the governance and economics of disasters and disaster risk management
☐   Quantifying Hazards and Impacts – Understanding the size, severity, and likelihood of hazards and their impacts for loss modelling
At least 1 choice and no more than 2 choices may be selected.

Additional Project Team Members

Provide details for up to five project team members (not including the Principal Investigator or students)

Researchers/Organisations

End of Form

You have come to the end of the Expression of Interest form. You will now be asked to review your submission after which you can choose to save the submission and come back later or submit to complete the process. **You must submit your application by 5 pm, Friday 11 November 2022, for it to be considered in this round.** Toka Tū Ake EQC will not consider submissions that are saved but not submitted. All successful submitted applications should receive a confirmation email from SmartyGrants.
